# ROBERTO STAGI

## FULL STACK ENGINEER

### ABOUT ME

I'm a passionate and proactive guy, who enjoys taking part of challenging projects and leading the innovation in the IT field.

### PROFESSIONAL EXPERIENCE

#### Senior Full Stack Engineer & Tech Lead, Mia Platform Mar 2022 - present

- Leading 3-people developers team, focused on Fast Data solutions for clients and prospects
- Part of the R&D group of Tech Leads defining the Fast Data product Road Map

#### Full Stack Engineer Specialist, Mia Platform Oct 2020 - Feb 2022

- Developed microservices and frontends, handling 100K+ users and 7M+ events/day
- Reduced of 80% Fast Data configuration costs for the company, thanks to automatic SQL DDL parsing and configurable data pipeline through JSON files, both ideated by me
- Scrum Master since March 2021 for a 10-people team, facilitating all Scrum events and coaching the team to the use of the Agile best practices

#### Research Student, Barcelona Supercomputing Center Oct 2019 - Apr 2020

- Worked on performance tracing methodologies, enhancing Extrae to trace Big Data Java libraries (AspectJ, JVM TI, C++)

#### IT Consultant, Retail Reply Sep 2018 - Apr 2019

- Maintained e-commerce backend (Java) for Calzedonia Group, handling 3M+ requests/day
- Developed web-app (Node.js, Angular.js) to manage order returns for Calzedonia storehouses

### FREELANCE PROFESSIONAL EXPERIENCE

#### Chief Technology Officer, [savingbud.com](https://savingbud.com) May 2021 - present

SavingBud is an italian FinTech Startup Company focused on easing the Complementary Pension Funds choice and subscription process.

### EDUCATION
