ROBERTO STAGI

FULL STACK ENGINEER

ABOUT ME

I enjoy being part of innovations and witnessing the value I create for others. I'm a passionate and proactive full stack developer, a generalist in a specialized world, but also an amateur photographer and an incurable optimist.

WORK EXPERIENCE

@ SavingBud

Lead Full Stack Engineer & Agile Coach

May 2021 - present | Turin, Italy (freelance, remote)

Keywords: Node.js, React, DevOps & Agile coaching, Startup, Innovation

- Promoted Agile practices, like TDD and Scrum, reducing bug generation rate and improving team performance
- Configured the IT infrastructure and CI/CD pipelines on GitHub and Cloud Run, speeding up the software development process by 2x

@ Mia Platform

Full Stack Engineer

Oct 2020 - present | Milan, Italy

& Scrum Master
Mar 2021 - present

Keywords: Node.js, Go, React, MongoDB, Fast Data, Kafka, TDD, Agile, Kubernetes

- Developed backend and frontend production software (including mobile), used by 100K+ users daily
- Directly developed cloud-native solutions based on microservices handling up to 4M+ events/day
- Reduced by 90% data pipelines setup time, developing configurable services

@ Retail Reply

IT Consultant for Calzedonia group

Sept 2018 - Apr 2019 | Turin, Italy

Keywords: Java, Node.js, AngularJs, Jenkins

- Developed production backend software handling 3M+ views/day
- Developed web-app for storehouses backoffice used by 1K+ users
