ROBERTO STAGI

FULL STACK ENGINEER

ABOUT ME

I'm a passionate and proactive guy, who enjoys taking part of challenging projects and leading the innovation in the IT field.

PROFESSIONAL EXPERIENCE

Senior Full Stack Engineer & Tech Lead, Mia Platform Mar 2022 - present

- Leading 3-people developers team, focused on Fast Data solutions for clients and prospects, responsible for ~€1M company budget
- Part of the "Fast Data Consortium", a small group of Tech Leads leading the product Road Map

Full Stack Engineer Specialist, Mia Platform Oct 2020 - Feb 2022

- Developed microservices and frontends, handling data pipelines of 8 millions updates/day
- Reduced company costs by 80% on Fast Data configuration thanks to my proactiveness and experimentation to find innovative solutions
- Awarded with Perfect Year 2021, yearly prize reserved to the year's top employees
- Been the Scrum Master for a 10-people team since March 2021, facilitating all Scrum events and coaching the team to the use of the Agile best practices

Research Student, Barcelona Supercomputing Center Oct 2019 - Apr 2020

- Worked on performance tracing methodologies, enhancing Extrae to trace Big Data Java libraries

IT Consultant, Retail Reply Sep 2018 - Apr 2019

- Maintained the e-commerce backend for Calzedonia Group, handling 15.5M+ daily visits on the websites and up to 70M+ requests/day
- Developed web-app to manage order returns for Calzedonia storehouses

FREELANCE PROFESSIONAL EXPERIENCE

Chief Technology Officer, savingbud.com May 2021 - present

SavingBud is an italian fintech Startup Company easing the Complementary Pension Funds choice and subscription process. I'm working as a part-time CTO, leading the technical Road Map.
